Tamara Bryant, seconded the motion

Discussion:

Bay Nordic went on record stating that they were against going from 2 to 1 relay partner team for scoring for the partner relay team scoring. (Partner relay team scoring will have 1 single gender team of each gender and 1 mixed gender team.)

Rules of Competition could still be better written as a document. Andrew and Dean thought they could give it a try.

Educating skiers, parents, and coaches about the rules of competition and scoring is an important goal for this year. The committee (and any other coaches who would like to help) will work on this goal. The league administrator will also be a key person for educating league members and getting the information out to the ski community with clarity.

Vote:

The vote was 12 teams in support (23 votes)
